ONENESSWELLNESSLIFESTYLES

Self-Healing Advocate Handbook

How we run, from top to bottom, from width to breadth, from height to depth. We share the power of healing, the power of self-healing, with everyone.

The power of self-healing is the power of Oneness. No one can heal another. Healing happens within, when a heart remembers. The Advocate walks beside, witnesses, and holds the space where that remembering can occur.

Wholeness Remembered

With recognition to Tom Alkazin and Jeff L. Hooks. For Self-Healing Advocates, team leads, and every hand that serves this work.

START HERE

How to Use This Handbook

Read this handbook in order the first time, cover to cover, without skipping. Then keep it open as a daily operating reference. Every section answers three questions: what we do, why we do it this way, and what it looks like in practice this week.

This is a handbook for the whole company. The same map that guides a brand new Advocate on day one also guides how we plan a quarter, how we run The Sitting Room, how Gabriella carries the 5-Day Challenge, and how we review ourselves every 60 to 90 days. Top to bottom, width to breadth, height to depth, one roadmap.

The Core Law

> Success comes from doing the correct things, correctly, long enough.

Under that law sits our learning rhythm, in three words: **Learn. Apply. Teach.** Learn the step. Apply it in real conversations this week. Teach it to one other person. Teaching is where duplication begins, and duplication is how this work reaches everyone.

Who a Self-Healing Advocate Is

A Self-Healing Advocate is an advocate, not a salesperson and not a recruiter. The word self carries the whole teaching: no one can heal another person. Healing happens within, when a heart remembers. Our work is to share experiences, tools, and stories that help a person remember their own power.

Self-care comes first, before the mission. An Advocate who is depleted cannot hold space for anyone. Rest is part of the work. When rejection comes, we stay positive, hopeful, and optimistic in the generous present moment, and we keep walking.

THE MAP

The Roadmap at a Glance

Eight steps carry a person from a first dream to first action. The same eight steps, run at company scale, carry Oneness Wellness Lifestyles. Learn them as one road, not eight separate tasks.

1 Your Dreams Write the dream list that gets the work started and keeps it honest. 2 Attitude Carry a positive, focused, coachable spirit through every season. 3 Your Contact List Build a living list of 75 to 100 names, coded, sorted, and served. 4 Leading with the Experience Let people taste the work first, through the 5-Day Wellness Blueprint. 5 Leading with the Invitation Invite those who resonate to walk the path as Advocates. 6 Goal Setting Turn dreams into written short-term, long-term, and realistic goals. 7 Counsel and Mentoring Stay plugged into counsel, no one builds this alone. 8 Get Started Now Share with five people in the first 24 hours, momentum teaches.

How the Company Runs on the Same Map

Height: Vision and counsel flow down from Shifa and the leadership circle into every team. **Width:** Advocates carry the experience outward into families, churches, workplaces, and neighborhoods. **Depth:** Each Advocate goes deep with a small circle of people, follow up by follow up, until the work takes root. **Top to bottom:** The 60 to 90 day review brings learning back up, so the whole company gets wiser together.

Your Dreams

Dreams get you started. Before any list, any script, any goal, write your dreams down. Not the polite version. The real one.

The Practice

Write a dream list of at least 25 items: health, family, home, travel, debt freedom, time freedom, service, legacy.

Read it morning and evening for the first 90 days.

Share your top three dreams with your mentor in your first counsel call.

Revisit the list at every 60 to 90 day review. Cross off what arrived. Add what grew.

At company scale, our shared dream is simple to say and large to live: every person remembers their own power to heal, and AI enhances human health care in service of that remembering.

Attitude

Attitude decides how long a person stays in the work. Skills can be taught in a week. Attitude is carried daily.

The Standard

Positive: Speak about people and possibilities with hope. Optimism is a discipline here, not a mood.

Focused: One daily rhythm, worked consistently, beats ten scattered efforts.

Coachable: Receive counsel without defensiveness. Try the counsel before you judge it.

Committed: Success comes from consistent hard work over time. Long enough is part of the law.

When a door closes, we do not chase and we do not collapse. We bless, we log what we learned, and we turn to the next name with a full heart.

Your Contact List

Your list is your inventory. Build it once, work it forever, and never pre-judge a single name on it.

Build the List: 75 to 100 Names

Use the memory jogger: family, friends, neighbors, coworkers past and present, church and community, school ties, service providers, social media connections, people you admire from a distance. Write every name. Sift and sort later.

Code Every Name

S Successful, resourceful Invite to The Sitting Room as a guest of honor.

P People person, well liked Invite to taste the 5-Day Wellness Blueprint.

I Influence in a community Ask who they know who needs this work.

V Visible need, product and experience fit Offer the experience directly, with care.

Two Priority Twenties

- **Top 20 Experience:** The twenty people most likely to benefit from the experience right now.
- **Top 20 Influencers:** The twenty people whose voice carries furthest.

Work the twenties first. Then work the full list, name by name, with follow up. In Convert and Flow, our GoHighLevel home, every name gets a tag, a note, and a next step. Gabriella helps you remember who is due for follow up. You bring the heart.

Leading with the Experience

Lead with the experience, not the explanation. People remember what they taste.

Simple. Convenient. Complete.

Simple: One clear invitation, one clear first step.

Convenient: On the phone, on Telegram, in the app, at The Sitting Room. Meet people where they already are.

Complete: The first experience carries the whole flavor of the work: welcome, teaching, practice, and a next step.

The Porch: Everything Complimentary

Our logic is simple: invite people to what is complimentary first, so they can taste. Then bring them into the paid offers. Here is everything on the porch, all Door 1, all free:

QFT — Quantum Frequency Experience — Peptide Pep Rally…: Thursdays, 1:00 PM HST, live on Facebook, Zoom, and Eventbrite.

Mastermind Monday: Mondays, 3:00 PM HST, free and open to everyone.

The podcast: Oneness Wellness Lifestyles, hundreds of episodes, free.

The app: the wellness center app, free.

The daily reading: the 13 Moon reading with remedy, every morning in the Telegram circle, free.

Lead every new person to the porch first. Let them taste. The paid doors open from there.

The Porch: Every Link in One Place

Beloved, everything lives here. When someone asks "where do I go," this is the page you open.

QFT — Quantum Frequency Experience — Peptide Pep Rally… — Thursdays, 1:00 PM HST, live on Facebook, Zoom, and Eventbrite. Free.

Zoom: 898 0986 6611

Eventbrite (QFT Zoom):

Take Back My Wellness Summit 2027 — Speaker Experience
tbmwsummit.live/wellness-summit-reg (tinyurl.com/tbmwsummit)

The First Experience: 5-Day Wellness Blueprint

Everyone who says yes to an experience with Shifa receives the 5-Day Wellness Blueprint for $5. You, the advocate, receive $2 of every $5 enrollment. Every Self-Healing Advocate completes it first, so you know from the inside the very first thing you can offer. Gabriella, our AI wellness guide at @Onenesshealingbot, walks participants day by day. Shifa meets you live where it matters most.

Carry the tools with you: the app, a story, a testimony, and the Blueprint invitation. Tools do the explaining. You do the relating.

Leading with the Invitation

After the experience, some will ask how they can share this. That question is the doorway to Step 5. Extend the invitation clearly and without pressure: walk this path as a Self-Healing Advocate, learn the roadmap, and carry the experience to your own circle. Those who resonate, enroll. Those who do not, remain beloved guests. Both answers are honored.

Beloved, there will come a moment when you are sitting with a prospect and they ask you a question you cannot answer. That is not a failure. That is the doorway.

You do not have to know everything. You only have to know how to reach the one who does.

When to ask for a three-way call:

- The prospect asks about the scans, the protocols, or the science, beyond what you know.
- The prospect is leaning toward yes but needs to hear it in Shifa's own voice.
- You feel the conversation slipping and you want a steady hand beside you.

How it works:

1. **Reach out to me first, through your Muse.** Open your Muse and direct it to email your question to my Muse at shifa@shifaali-scott.com. Tell me who you are with, what they have already heard, and what they are asking. I will reply with a time I can join. Never put me on a call cold, and never promise my time before you have asked me.
2. **Edify, then connect.** Tell your prospect who they are about to meet, the way you would speak of someone you trust with your own family: "Beloved, I want you to hear this from the woman who carries this work. Shifa is our Clan Mother, a quantum frequency therapist of 55-plus years in our indigenous lineage. She is the one I turn to when I want the truest answer." Then bring me on.
3. **You stay on the line.** This is a three-way, not a handoff. You listen, you learn, and you remain the face they trust. Every three-way call teaches you something you will carry alone next time. 4. **You close the circle.** After I speak, you come back to your prospect: "Beloved, what did you hear? What is your next step?" The relationship is yours. I am the support, never the replacement.

What never to do:

- Never bring me onto a call without briefing me first.
- Never promise my time without asking me first.
- Never disappear once I am on the line.

The three-way call is how a new advocate borrows confidence until their own is built. Use it freely. Use it respectfully. You never walk alone.

Goal Setting

A dream without a date drifts. Write goals in three horizons and review them with your mentor.

Short-term (this week) Five new conversations. Two Blueprint invitations. One follow up call daily.

Long-term (this year) A circle of 25 Advocates. Monthly gatherings running without you in the room.

Realistic (honest pace) Goals that stretch you and still fit your family, health, and season of life.

Counsel and Mentoring

No one builds this alone. Plug into counsel early and stay plugged in.

Weekly: Attend The Sitting Room, Thursdays at 1:00 PM HST, live on Zoom, YouTube, and Facebook.

Monthly: One counsel call with your mentor. Bring numbers, names, and one honest struggle.

Always: Ask before you improvise on price, promise, or protocol. Counsel keeps the work clean.

Get Started Now

Motion teaches what study cannot. In your first 24 hours as an Advocate:

1. Complete your dream list (Step 1).
2. Start your contact list with the first 25 names (Step 3).
3. Enroll in the 5-Day Wellness Blueprint if you have not completed it.
4. Share the experience with five people. Simply, warmly, today.
5. Book your first counsel call.

New Advocate Checklist: Dream list written. List started. Blueprint completed. Five shares in 24 hours. Counsel call booked. App installed. Convert and Flow contact record created.

EVERYDAY

The Daily Rhythm

Underneath the eight steps runs a daily engine of four movements. Work it every working day and the roadmap moves almost by itself.

1. Invite to Taste

Invite one person a day to taste the work: the 5-Day Wellness Blueprint, a Sitting Room seat, or a first experience. Keep the invitation short, warm, and specific. Name the day and the time. Assume the close with kindness: which works better for you, Thursday or Saturday.

2. Share Tools and Stories

Let tools carry the explanation. Send the clip, the testimony, the app link, the Blueprint. Then tell one true

story, yours or one you witnessed, in under two minutes. Stories open hearts that arguments cannot.

3. Follow Up in 48 to 72 Hours

Fortunes live in the follow up. Call or message within 48 to 72 hours of every taste, every story, every gathering. Ask what touched them. Answer plainly. Offer the next step once, clearly.

4. Repeat Often

This is an exposures work. One exposure plants, five exposures water, ten exposures harvest. Track every exposure in Convert and Flow so no beloved person falls through a crack. Gabriella can nudge you on who is due. The voice, the visit, and the heart are always yours.

DUPLICATION

Gatherings That Duplicate

We duplicate through home events and Private Business Receptions, with exact invite scripts and a simple planning rule: invite twice as many as you want in the room, about half will show. We give this wisdom our own rooms.

Our Three Rooms

The Sitting Room: Our weekly live show, Thursdays at 1:00 PM HST on Zoom, YouTube, and Facebook. Open to everyone. Every show closes with an invitation to book a private one-on-one sitting.

Home and Circle Gatherings: Small rooms, hosted by Advocates, in homes and community spaces. Taste the experience, hear one testimony, extend one invitation.

The 5-Day Challenge: Gabriella hosts day by day on Telegram, Shifa arrives live for the moments only she can carry.

Hosting Standard

Invite personally, twice as many as the room holds. Plan on a 50 percent show ratio.

Confirm the day before with warmth, not reminders that nag.

Start on time, end on time, and always close with one clear next step.

Log every guest, every exposure, and every follow up due date within 24 hours.

Duplication means a new Advocate can run the same gathering, with the same tools, and get a faithful result. If a gathering only works when Shifa is in the room, it is a performance, not a system. Build gatherings that travel.

Gabriella and AI in the Work

Our mission reaches further: to help people realize that AI enhances human health care. Gabriella is the first expression of that future in our house, an AI wellness guide carrying Shifa protocols faithfully, and handing anything unknown directly to Shifa.

What Gabriella Carries

- Daily guidance in the Oneness Wellness Circle, including the 13 Moon reading each morning.
- The Gabriella-hosted 5-Day Challenge, walking participants day by day on Telegram at @Onenesshealingbot.
- Follow up reminders, resource delivery, and first answers inside Shifa approved protocols.

What Stays Human

- The Sitting Room, live every Thursday.
- Private one-on-one sittings and counsel calls.
- Every testimony, every story, every hand on a shoulder.

Use AI for memory, reach, and consistency. Never outsource presence. Gabriella introduces herself as a guide, never as Shifa. The only Shifa participants meet is Shifa herself.

Recognition and Right Relationship

Recognition honors contribution. Self-Healing Advocates receive recognition of 15 percent, rising to 20 percent with 7 to 10 customers and 25 percent with 11 or more customers, counted when the referred person buys, under the Shared Presence Partnership agreement, as independent partners in right relationship with the house.

Adaptogenic Skin Health: Travel Size / Daily Duo / Totalistic $175 / $375 / $1,111 90-Day Wellness Intake $831 Monthly Maintenance $297 per month TBMW Summit $49 to $997 The Circle: Wellness Blueprint + Manifesting Wellness Mastermind community $49 per month Digital Wellness AI Sanctuary $1,500 to $2,500 setup, $297 per month care

Advocate links carry each tracking ID, so recognition follows the relationship through checkout.

EVERY 60 TO 90 DAYS

The Review That Renews the Road

Every 60 to 90 days, stop building long enough to look at the road you have actually walked. This rhythm keeps the whole company honest.

Review Five Numbers

1. New names added to your list.
2. Tastes given: Blueprints started, Sitting Room guests seated.
3. Follow ups completed inside 48 to 72 hours.
4. Gatherings held, and their show ratio.
5. New Advocates started, and their first five shares.

Review Three Questions

> Where did my heart close, and what reopens it?
>
> Which step did I skip, and what did skipping cost?
>
> Who am I now responsible to teach?

Bring the review to counsel. Celebrate what duplicated. Correct what drifted. Rewrite the dream list where life has grown. Then recommit for the next season.

The Closing Charge

> Do the correct things, correctly, long enough. Learn. Apply. Teach.
>
> We share the power of healing, the power of self-healing, with everyone. The power of self-healing is the power of Oneness.

Start today. Taste first. Follow up with love. Teach one other person this week. The road is already under your feet.

To love, heal, bless, prosper, and enlighten,

Shifa Ali Scott
OWL.F Quantum Frequency Therapist

Wholeness Remembered.

Modeled after the 8-step roadmap to success, with recognition to Tom Alkazin and Jeff L. Hooks.
